EDUCATION

Florida International University

Bachelor Of Arts, Computer Science; Minor, Entrepreneurship

Miami, Florida

May 2026

SKILLS

Languages: JavaScript, TypeScript, Python, Java, SQL, C

Framework & Libraries: React, Node.js, Spring Boot, HTML, CSS, Tailwind CSS

Tools & Platforms: Git/GitHub, Supabase, Vite, IntelliJ, Visual Studio Code, Postman

Focus Areas: Full-Stack Development, API Integration, Responsive & Accessibility Design

PROJECTS

Expense IQ: AI Expense Analytics Dashboard

Miami, Florida

React, TypeScript, Vite, Supabase, TailwindCSS

January 2026 – Present

- Architected a full-stack expense analytics platform using React, TypeScript, and API integration, enabling real-time transaction tracking and financial insights
- Designed scalable UI components and application architecture to support maintainability and feature expansion
- Integrated backend services to fetch, process, and display transaction data dynamically
- Developed features end-to-end, from UI design to data handling and performance optimization

Kairos Collaborative Time Management Application

Miami, Florida

React, Node.js, SQL, GitHub Collaboration

Sep 2025 – Present

- Developed the front-end interface using React, enabling dynamic task creation, editing, and user interaction.
- Collaborated in a team using GitHub workflows (branches, pull requests, code reviews) to improve development efficiency and code quality.
- Designed and implemented reusable UI components to support a responsive and interactive user experience.
- Integrated frontend components with backend services to enable real-time task data retrieval and updates.

Universal Education Empowerment

Miami, Florida

HTML, CSS, JavaScript

Sep 2024 – Dec 2024

- Engineered a fully responsive educational platform designed to improve accessibility for underprivileged communities, ensuring seamless functionality across desktops, tablets, and mobile devices.
- Optimized performance by implementing CSS flexbox and media queries, reducing load times through image compression and lazy loading techniques.
- Designed an intuitive user interface with structured navigation and resource discovery features, enhancing engagement for students and educators

EXPERIENCE

Classic Menswear Inc

Miami, Florida

Sales Associate / Floor Lead

Sep 2019 – Present

- Delivered high-quality customer service in a fast-paced retail environment, using the POS system and SQL-based sales reports to identify customer preferences, which increased repeat visits and strengthened client relationships
- Assisted in leading daily store operations during high-traffic periods, coordinating staff schedules with a Vite-managed task board and applying Java-based inventory alerts, resulting in smoother checkout flow and reduced wait times
- Training and supported new employees on POS procedures and Tailwind-styled visual-merchandising guidelines, fostering team coordination and leadership that improved onboarding efficiency and sales-floor coverage

ACTIVITIES AND LEADERSHIP

CodePath Emerging Engineer Empowerment Program

Miami, Florida

Student/Participant

Sep 2024-Present

- Completed intensive, hands-on training in full-stack web and IOS development, building real-world applications.
- Collaborated with peers in team-based projects, applying agile development practices and GitHub version control
- Applied skills achieved in CodePath to design and deploy the Universal Education Empowerment website promoting education access.

INIT FIU

Miami, Florida

Member

Sep 2023-Present

- Participated in technical workshops and networking events focused on software engineering & career development.
