EDUCATION

Florida International University

Miami, Florida

Bachelor Of Arts, Computer Science | Minor: Entrepreneurship

Expected Summer 2026

Relevant Coursework: Data Structures & Algorithms, Operating Systems Principles, Database Systems, Software Engineering

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, Swift (SwiftUI), SQL, C

Framework & Libraries: React, Node.js, Spring Boot, HTML, CSS, Tailwind CSS

Tools & Platforms: Git/GitHub, Supabase, Vite, Postman, Docker, IntelliJ, Visual Studio Code

PROJECTS

Expense IQ: AI Expense Analytics Dashboard

January 2026 – Present

React, TypeScript, Vite, Supabase, TailwindCSS | expense-iq-lilac.vercel.app

- Designed and shipped a production AI-powered expense dashboard currently serving 6-10 active beta users tracking real spending data, live, deployed, and iterated on continuously.
- Engineered an AI insights engine that analyzes transaction patterns and generate personalized financial recommendations per user.
- Reduced re-render cycles by ~35% via modular component architecture, improving responsiveness on low-bandwidth connections
- Designed & implemented a RESTful backend with optimized PostgreSQL queries, cutting average data retrieval time by 40%

Kairos Collaborative Time Management Application

Sep 2025 – Dec 2025

React, Node.js, SQL, GitHub Collaboration | github.com/Kairos-Moment/kairos-app

- Built a full-stack task management app in a 3-person team using React & Node.js, delivering a working product within a single semester.
- Integrated a REST API with real-time task persistence, reducing frontend state sync issues during collaborative sessions.
- Led GitHub collaboration workflows, managed branching strategy, reviewed 15+ PRs, and enforced code review standards.
- Developed a reusable component library of 8+ UI elements, improving consistency and cutting development time across the application

Universal Education Empowerment

Sep 2024 – Dec 2024

HTML, CSS, JavaScript | spiketek241.github.io/Universal-Educational-Empowerment/

- Built a fully responsive educational platform serving underprivileged communities, optimized across desktop, tablet, and mobile.
- Reduced page load time by ~45% via image compression, lazy loading, and CSS flexbox optimization
- Designed structured navigation and resource discovery features, reducing the average clicks to find content from 4 to 2.

EXPERIENCE

Classic Menswear Inc

Miami, Florida

Sales Associate / Floor Lead

Dec 2019 – Present

- Managed high-volume customer interactions in a fast-paced retail environment, consistently recognized among top associates for customer satisfaction.
- Streamlined floor operations during high-traffic hours, contributing to measurable reductions in customer wait times and improved throughput.
- Onboarded and trained 5+ new employees on POS systems and procedures, cutting ramp-up time by ~30%.

ACTIVITIES AND LEADERSHIP

CodePath Emerging Engineer Empowerment Program

Miami, Florida

Student/Participant

Sep 2024 – Present

- Completed intensive, hands-on training in full-stack web and iOS development, building and deploying real-world applications.
- Collaborated in team-based projects applying Agile development practices, Git version control, and peer code review.
- Applied full-stack development skills to deploy a platform promoting educational accessibility.
